

## KTV

The staff at KTV are the most dedicated and true group of people that I have ever had the pleasure of working alongside. They bring forward a treasure of personalities, smiles, laughs, love, and grit. These people are the best of the best, and I am grateful that they are a part of my life, and grateful that they are a part of the lives of Karisa, Todd, and Vince.

You are all the heart of the team! The fight that keeps on fighting. These are the people that run the day-to-day business of the house. The meal makers, the organizers, the drivers, the family gatekeepers. You do so much hard work so that I can focus on the other things.

KTV has a dynamic personality, and the team is honestly an absolute pleasure to be around. I am blessed that the KTV squad is not afraid of learning from mistakes and we as a group are succeeding in life through our actions every day, becoming a stronger force. So, heads up, we are taking over the world, one little piece at a time.

This team understands that we are only as great as our weakest member, and we have stepped up our game and improved the quality of work that we all do both on the clock and on our own time. We have team members that are raising families, building their futures, farming, following their hearts, chasing their passions, giving back to their communities, and just being the awesome people that they are, all while maintaining an excellent work ethic and team spirit at KTV.

KTV has a very strong work ethic, and I have watched this team strive not only to be the best that they can be, and while doing this the team also brings up those around them. My KTV team is always taking initiative, has self confidence in their judgement, and has proven that they have the ability and power to facilitate change!

The collective voice of my KTV voice is always focused on the value that is placed on relationships and people. This is such a tremendous asset that I cannot even begin to describe how important this is to my heart. My team is a compilation of hopes and dreams, frustrations and challenges, relationships and friendships, that sends a powerful message of acceptance, respect, and value.

Thank you KTV for allowing me the privilege to be your Team Lead. I am grateful for the people that you all are, and how you have all lead me to become a better person. It is because of all of you that I am able to be the best that I can be.
